

葉片式往復研磨機 Air-Saving Reciprocating Grinder

AR-06/03

轉速 Speed	往復行程 Stroke	尺寸 Dimensions	重量 Weight
25,000 rpm	0.3, 0.6	ø32×180 mm	196 g

- T6 Aluminum alloy case, Light weight, High Rigidity
- Reforming Turbine Motor, High efficiency, Low air consumption
- Best-seller air-saving model, fit to all weather and environments

AR-06-A

轉速 Speed	往復行程 Stroke	尺寸 Dimensions	重量 Weight
28,000 rpm	0.15, 0.3, 0.6	ø32×200 mm	275 g

- Blades are adopted Du-Pout Vespel material, Remarkable low-friction and self-lubricating
- Working stroke can be short at 0.15 (mm)
- Low noise, Low air consumption, Low vibration, High Power and High Torque

AIR-8207

轉速 Speed	往復行程 Stroke	尺寸 Dimensions	重量 Weight
25,000 rpm	0.15, 0.3, 0.7	ø31×188 mm	219 g

- Blades are adopted Du-Pout Vespel material, Remarkable low-friction and self-lubricating
- Working stroke at 0.15, 0.3, 0.7 (mm)
- Low noise, Low air consumption, Low vibration, High Power and High Torque

AIR-827

轉速 Speed	往復行程 Stroke	尺寸 Dimensions	重量 Weight
28,000 rpm	0.15, 0.3, 0.7	ø32×104 mm	238 g

- Nylon fiber case, Light weight, Acid resistance, Cold resistance
- Reforming Turbine Motor, High efficiency, Low air consumption
- Low noise, Low air consumption, Low vibration, High Power and High Torque
